

1. I have Blumen 8.0 version; is there any newer version available?

Answer: Yes, Blumen 8.01 is the latest update available.

2. How much does the new update - Blumen 8.01 cost?

Answer: Blumen 8.01 update is FREE of cost.

3. What happens to my existing data when I update to Blumen 8.01?

Answer: The update does not change any data. The existing data would remain the same and no changes would be made to your data. It is advised though to make a backup of your data before updating your Blumen to 8.01 version.

4. What are the new features in Blumen 8.01?

Answer:

- Send bulk-emails
- Insert student data in emails (like mail-merge)
- View only required fields (for the APR) for your TRIO project
- Required data displays field number/section related to the APR
- Switch between required fields screen and regular screen
- Print Demographic Profile summary report
- Print Provision of Services summary report
- Get new updates by clicking on a single button from within Blumen
- Find data entry errors and correct them before submitting the APR
- Multiple users can access the APR sections simultaneously
- Interactive screen to view and print Project Summaries
- Send/receive messages with-in the Blumen application (Networked)
- New reports have been added
- Font Size has been increased for the reports
- Data screens can be customize for your project (Additional fee applies)

5. How do I get the Blumen 8.01 update?

Answer: Go to the website: <http://www.compansol.com> ; Click on Downloads and then Updates; Select your TriO Program and then select Single user or Multiple user and click on Go. You would get to a screen where there would be downloadable update files and the instructions to follow.
