

Compansol

Computer Analysis & Solutions

TOTAL SOLUTION PACKAGE (OPTION A)

Compansol provides a Total Solution Package (TSP) that helps TRiO programs to enhance productivity, reduce paperwork, and maximize return on investment. These solutions help TRiO Programs solve critical challenges, capitalize on the value of their Information technology investments, and create an efficient, effective work environment.

The Total Solution Package-Option A includes the following:

Blumen Software (Server/Standalone version) OR **BOT** (Online/Web Based)

This CD includes a license for unlimited number of computers or servers for one grant OR **B.O.T.** (Blumen Online version for a year).

Blumen Workstation (Client/Multi-user version)

This CD includes a license for unlimited number of client computers for one grant and an electronic copy of the user's guide. (Not applicable for B.O.T.)

Blumen User's Guide (maximum 10 copies)

A paper copy of the complete electronic user's guide is included.

Data Transfer

We will transfer your existing data from your computer application/software into Blumen eliminating the need to re-enter data.

Script (Import Utility)

Customized program to import external data files on a regular basis (dbf, excel, text, ascii etc.) containing student data from the University mainframe/database like Banner, Datatel, Colleague, Accutrack etc. into Blumen.

2 Days On-Site Training/Assistance

A Compansol representative will be available for two days training session at your location which includes assistance with Installation if needed.
